
SHAMINI KORAVUNA

shaminik9646@gmail.com +49 17655204246 Ingolstadt, Germany

WORK EXPERIENCE

04/2020 – 09/2020 **Associate - Machine Learning Trainer**

Robokalam Technologies, Hyderabad, India

- Provided assistance in curriculum development on Data Science, Machine Learning, and Deep Learning with python.
- Designed, developed, optimized: Computer Vision, Machine Learning, Deep Learning models and algorithms that can be used to train graduates on edge devices.
- Trained 350+ graduates in Machine Learning and Computer Vision using python.
- Lead the research on "Educational Gamification and Artificial Intelligence for Promoting Digital Literacy and Effective User Engagement in the Online Learning Management System".

06/2019 – 12/2019 **Freelancer Deep Learning Engineer – Master Thesis**

Audi Electronics Venture GmbH, Gaimersheim, Germany

- Literature research to find the state-of-the-art human pose estimation methods.
- Fine-tuning the 2D pose detector model with different sensor modalities.
- Used a student-teacher approach to transfer the pose estimation to other sensor modalities.
- Integrated the test results.

  Tools Used: Docker, HDF5Viewer, Kubernetes, OpenCV, PyCharm, TensorFlow

EDUCATION

10/2020 – Present **Machine Learning Engineer – Nano Degree**

Udacity

- Learning machine learning techniques and algorithms -- including how to package and deploy the models to a production environment.
- Gaining practical experience using Amazon SageMaker to deploy trained models to a web application and evaluate the performance of the models.
- Learning how to update the models as we gather more data.

11/2016 – 09/2020 **Master of Science in Embedded Systems**

Chemnitz University of Technology, Chemnitz, Germany

- Computer Vision, 3D Image Processing, Hardware/Software-Codesign, Real-Time Systems, Design of Software for Embedded Systems, Software Platforms for Automotive Systems, Smart Sensor Systems, EDA-tools, Components and Architectures of Embedded Systems.

  Research project: 3D Human Pose Estimation using Deep Neural Networks.

  Master Thesis: 3D Human Pose Estimation using Different sensor Modalities at Audi Electronics Venture GmbH, Ingolstadt, Germany

09/2011 – 06/2015 **Bachelor of Engineering in Electronics and Communication Engineering**

Osmania University, Hyderabad, India

- Computer Networks, Digital and Analog Electronics, Digital & Analog Communication, Automatic Control Systems, Microprocessor & Microcontroller, Digital Image Processing, Global Positioning Systems.

  Bachelor Thesis: Implementation of Visible and Invisible Video Watermarking Technique.

SKILLS

Languages	English	★★★★★	German	★★★☆☆
Teaching		★★★★★		
Programming	Python	★★★★★	C++	★★★★☆
	C	★★★★☆		
Framework	TensorFlow	★★★★★	Keras	★★★★★
	PyTorch	★★★★☆		
Libraries	OpenCV	★★★★☆		

CERTIFICATIONS

09/2019 – 10/2019	Image Recognition with Neural Networks at Udemy Education
01/2019 – 02/2019	Crash Course in Deep Learning with Google TensorFlow Python at Udemy Education
12/2018 – 02/2019	Complete Guide to TensorFlow for Deep Learning with Python at Udemy Education
12/2018 – 02/2019	Complete Guide to TensorFlow for Deep Learning with Python at Udemy Education

PROJECTS

German Traffic Signs Recognition using CNN and Keras

- Designed a CNN model for recognizing German traffic signs.
- Achieved an accuracy of 94.33%.

  Project Link

Multiple Human Identifier and Counter in Real-Time

- Designed an efficient human counter using HOG and OpenCV.
- The model takes images, videos or even live camera as input for detecting and counting humans.

  Project Link

Real-Time Driver's Drowsiness Detection using Machine Learning

- Designed a robust model for predicting whether the driver is drowsy or not in real-time.
- The system alerts the driver with an alarm when he/she is drowsy.

  Project Link

Classification of Car Brand using Deep Learning

- Created the classification algorithm by transfer learning and fine-tuning Inception-V3 model using cars dataset from Stanford.
- The model is able to recognize 195 classes of cars with an accuracy of 83.94%.

  Project Link
